

**MAINE COMMUNITY SUPPORTED AGRICULTURE FARMS**  
**Updated May 15, 2006**

This is a listing of farms offering Community Supported Agriculture (CSA) shares for the 2006 harvest season. Most offer a full range of vegetables during the traditional growing season. A few offer other products (*e.g.* dairy, livestock, turkeys, blueberries) rather than vegetables. Some of the vegetable farms also offer additional products or extended deliveries during the winter.

If you are interested in establishing a relationship with a CSA farm, please call the farm directly for more information about share size, price, and pick-up or delivery options. Most offer vegetables during the Maine growing season, roughly June through mid-October.

Farms with names in **bold** are currently **certified as organic by MOFGA Certification Services, LLC**. Farms with *pending applications* are ***bold and italicized***.

This is a work in progress. Please send corrections or additions to:
